DETAILED ACTION

1. Claims 20-25 are pending in this application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 20-25 are rejected under 35 U.S.C. 102(b) as being anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Tanaka (US Patent 5,326,672).

Tanaka teaches a composite structure comprising a resist image 2a on a substrate (Figure 9). The substrate is a semiconductor substrate.

Tanaka discloses that the process is a step in the production of semiconductor devices (column 1, lines 6-16). This implicitly includes the steps of transferring the pattern to the underlying substrate layers by etching and ion-implantation.

Tanaka does not teach some of the process steps of the instant claims; however the final structure of the product-by-process claimed appears to be

Application/Control Number: 10/646,806 Page 3

Art Unit: 1756

the same as that disclosed by Tanaka and seems to perform the same masking function.

Applicant argues that claim 20 recites a "composite structure comprising an overcast image". Actually claim 20 recites a resist image whereby the overcast stabilizing film has been removed (see the last line of claim 20).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
